A React Native Developer with **almost 3 years of experience** in developing mobile applications for **iOS** and **Android**. Skilled in the entire development lifecycle and knowledgeable in backend technologies such as **NestJS** and **Laravel**. Aiming to transition into a **full-stack developer role**.

EDUCATION

Engineering degree   **Sep 2019 - Mar 2024**
Sai Gon University
  Major: Software Engineering

WORK EXPERIENCE

Backend Developer   **Nov 2024 - Present**
GOJOB VIETNAM TECHNOLOGY COMPANY LIMITED   **Ho Chi Minh**
  - Developed backend services using **Spring Boot** and **Laravel**, primarily working with **Spring Boot**.
  - Built **core microservices**, designed, and implemented backend APIs.
  - Contributed to the development of **TalentFusion** (job marketplace) and an **HRM system**.
  - Provided occasional frontend support when needed (**NextJS**, **TypeScript**).
  - **Deployed & managed** applications on **development servers**, experienced with **Docker**.

Mobile Developer   **Jul 2022 - Nov 2024**
CITEK ISD CORP   **Ho Chi Minh City**
  - Maintained and enhanced existing projects to keep them up-to-date with market demands.
  - Led the implementation of a **TypeScript-integrated codebase** to improve development productivity and code quality.
  - Recommended **MobX** over Redux for state management, reducing code complexity and improving team efficiency.
  - Developed mobile applications integrating with **CRM and MES systems**.
  - Integrated **VoIP24h** call-center module into mobile applications.
  - Managed app releases on **App Store** and **Google Play**, including updates and new submissions.
  - Mentored company interns, guiding them through mobile development best practices.

Full-stack Developer   **Jun 2023 - May 2024**
Freelance   **Ho Chi Minh**
  - Developed and deployed **multiple applications** using **React Native** for **mobile** and **Laravel/NestJS** for the **backend**.
  - Led **projects** from **concept to deployment**, ensuring **timely delivery** and **client satisfaction**.
  - Implemented **best practices** in **coding** and **project management** to improve overall **efficiency**.
  - Successfully delivered **three products**, including **two Survey systems** and **one Pilates studio management application**.

React Native internship   **Feb 2022 - Apr 2022**
ALTA SOFWARE   **Ho Chi Minh City**
  - Learned **React Native** through hands-on experience, completing **two mobile applications**.
  - Developed **problem-solving skills** by working on **real-world projects**.
  - Gained **proficiency in reporting and presenting technical ideas effectively**.
  - Built a **solid foundation in mobile development**, preparing for **future career growth**.

SKILLS

Mobile Development: React Native, Java, Flutter, Zalo Mini App

State Management: MobX, Redux Toolkit, Bloc

Real-time Processing: Socket.io, Firebase Realtime Database

Services: RESTful API, Firebase, Google Map, VoIP24h

UI Libraries: Tailwind, NativeBase, RNUILib, React Native Paper, Reanimated

Backend: Spring Boot, Laravel, NestJS, MySQL

Deployment: AppStore, CHPlay

Version control: Git, Github

PROJECTS

react-native-simple-text-captcha ⧉   **Jul 2024 - Jul 2024**
  - **Technologies:** React Native, TypeScript.
  - **Role:** Developed a library to generate and validate text captchas in React Native applications.

react-native-zebra-rfid-barcode ⧉   **May 2024 - May 2024**
  - **Technologies:** TypeScript, Java, Zebra rfid SDK.
  - **Role:** Designed and implemented RFID barcode scanning functionality. Integrated SDK into the existing mobile application to enhance inventory management capabilities.

HK Pilates   **Mar 2024 - May 2024**
  - **Customer:** Health Kingdom Pilates – Freelancer.

- **Technologies:** NestJS, MySQL, React Native, Ubuntu Nginx.
- **Role:** Developed the back-end system using NestJS. Configured the server on Ubuntu/Nginx. Built and deployed the mobile application.

react-native-table-element ↗   **Nov 2023 - Dec 2023**
- **Technologies:** TypeScript, React Native.
- **Role:** Created and maintained reusable table components. Enhanced user interface and experience by developing a flexible and responsive table layout.

JTI Survey Web   **Sep 2023 - Nov 2023**
- **Customer:** HDCreative (for JTI Vietnam) – Freelancer.
- **Technologies:** PHP Laravel, MySQL, ReactJS, AntDesign.
- **Role:** Developed and optimized APIs for efficient data exchange using Laravel. Created dynamic web interfaces using ReactJS and AntDesign.

react-native-bottom-select-picker ↗   **Aug 2023 - Aug 2023**
- **Technologies:** TypeScript, React Native.
- **Role:** Developed and released a bottom select picker component. Ensured compatibility across various devices and improved user experience by providing an intuitive selection interface.

react-format-number-shorten ↗   **Jun 2023 - Jul 2023**
- **Technologies:** TypeScript.
- **Role:** Developed a utility library to format and shorten numbers. Enhanced readability and user experience by providing a concise number format solution.

Gojek Survey API   **Jun 2023 - Jun 2023**
- **Customer:** HDCreative (for Gojek Vietnam) – Freelancer
- **Technologies:** PHP Laravel, MySQL.
- **Role:** Designed and implemented robust APIs to support survey functionalities. Improved system performance and reliability by optimizing database queries.
